

推薦老師姓名：Ngan Yiu Wah

書籍名稱：《快樂無處不在》

" Happiness is Everywhere "

(Chinese-English Bilingual Edition)

作者/編者：區樂民(Lokman Au)

分享感言：

According to the author, happiness is rather amazing. When people around you are happy, you will be even happier. He hopes that this book will bring more happiness to his readers.

The essays in this book are categorized into the following seven topics:

1. Wishing you a very long life
2. Vows
3. Growing up
4. Flying kites
5. A thousand flavours, all equally wonderful
6. Homemade Christmas cards
7. Good boss

This is an interesting and inspiring book, full of fascinating insights into human relationships, family / moral values and other invaluable life lessons. After reading the book, I have become more enlightened in my views on happiness.

I suggest that students read the English version first and in case they come across any words they do not understand, they can refer to the Chinese version. By doing so, students can enrich their English vocabulary while embarking upon a journey towards a happier life.
